EDUCATION SYSTEM

- The Ministry of National education is responsible for school level education in Türkiye
- pre-primary,
- primary and secondary education.
- The higher education system of Türkiye is managed and supervised by the Council of higher education.
- Turkish education system changed in 2012 as 4+4+4 compulsory education
- 4 year primary, 4 year elementary and 4 year high school .
- It was created with the purpose of increasing the period of compulsory education in Türkiye to the average of EU and OECD countries and providing a more qualified education .

Levels of Turkish Formal Education System

Pre-Primary Education

Pre-primary education in Türkiye is optional and is offered by the kindergartens, nurseries, day-care centres and other child-care institutions. Children aged 3 to 6 may attend this pre-primary schools. In Türkiye, there are private as well as state preschools.

Secondary Education

Secondary education in Türkiye is for children aged 15 to 17/18. The duration of secondary education is 4 years. This education is offered by high schools (Lise). The government is responsible for these schools and education in these schools is free of charge.

Secondary education in Türkiye comprises of general, vocational and technical education. This educational level prepares students for higher education or a vocation. General secondary education: Children aged 15 to 17 may go for general secondary education. This secondary educational level consists of high schools, Anatolia fine arts high schools, high schools of foreign language teaching, Anatolian High Schools, science high schools, and Anatolia teacher training high schools.

Vocational and technical secondary education:

This secondary educational level prepares students for a particular profession, or for higher education. This secondary educational level consists of technical educational schools for boys, religious education schools, technical educational schools for girls, health education schools, TRADE and tourism schools, special education schools, multi-program high schools, and private education schools.

Higher Education:

The higher education council (YOK) administers the higher education system in Türkiye. Public higher education institutions receive FINANCE from the state. Students who have completed secondary education and passed the university entrance exam are eligible for higher education.

Higher education institutions in Türkiye are mainly of two types- state and private/foundation universities

- Values and aims:
- Growing healthy and happy citizens
- Discovering and realising the genius in everyone.
- Learning about and respecting the people with whom we share our world.
- Developing and acquiring the skills needed to achieve personal success.
- Building up confidence
- Learning to treat and respect others the way we like to be treated.

It is one of the biggest school in Atakum
