LEARN 4LIFE

ACTIVE AND RESPONSIBLE CITIZENSHIP

Headteacher Prof. Achille Volpini

ACTIVE CITIZENSHIP AND THE ENVIRONMENT

The term environment includes the town, the city, our village we live in; the area we work and carry out our daily activities:

The water we drink; the air we breathe and the food we eat.

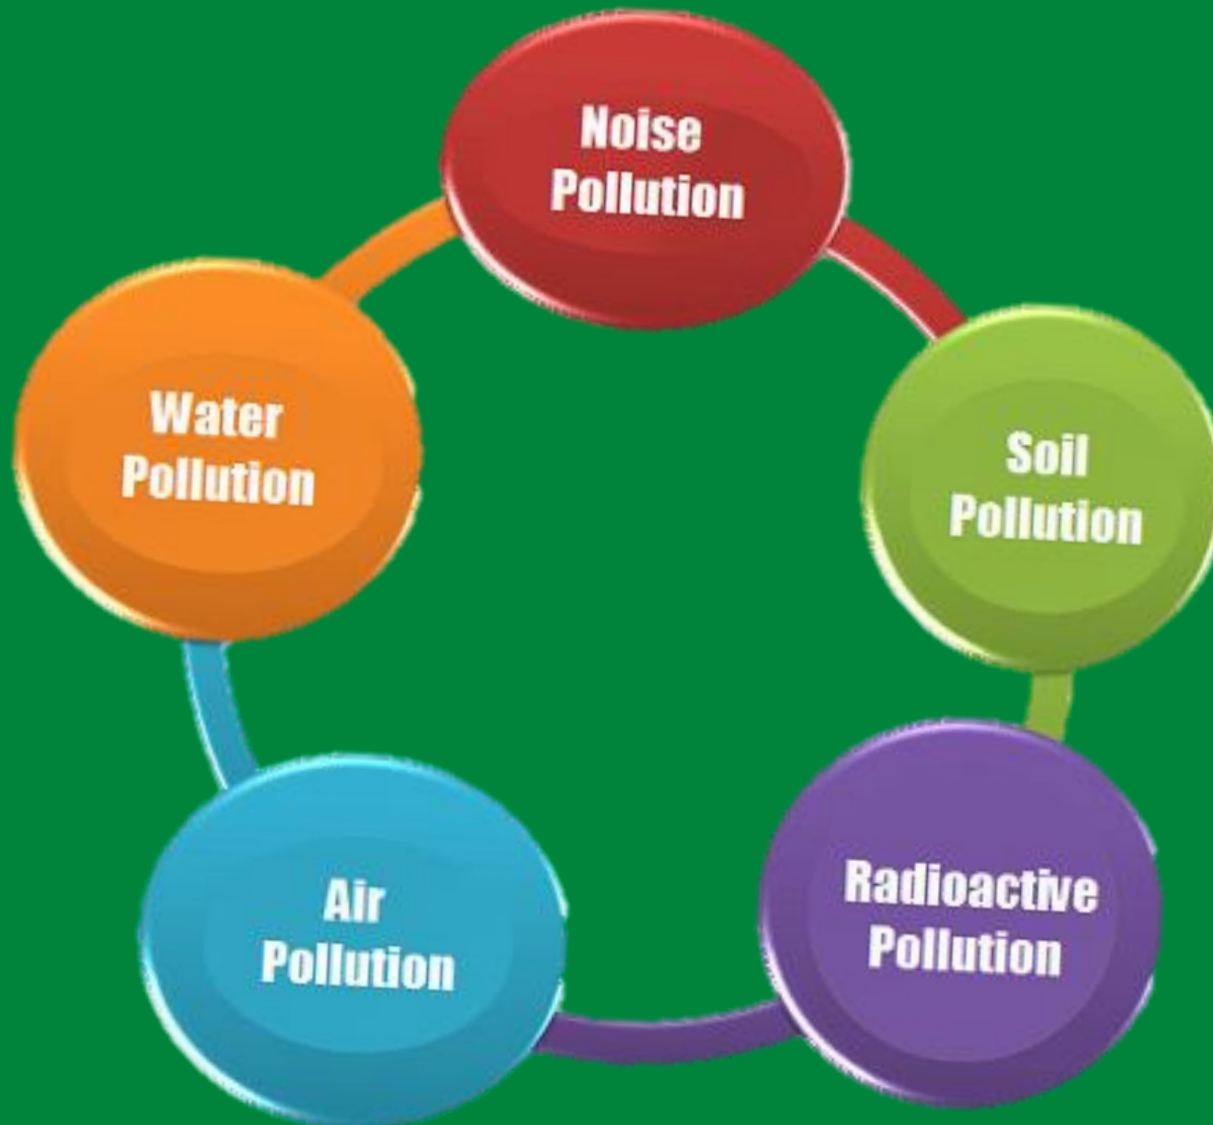

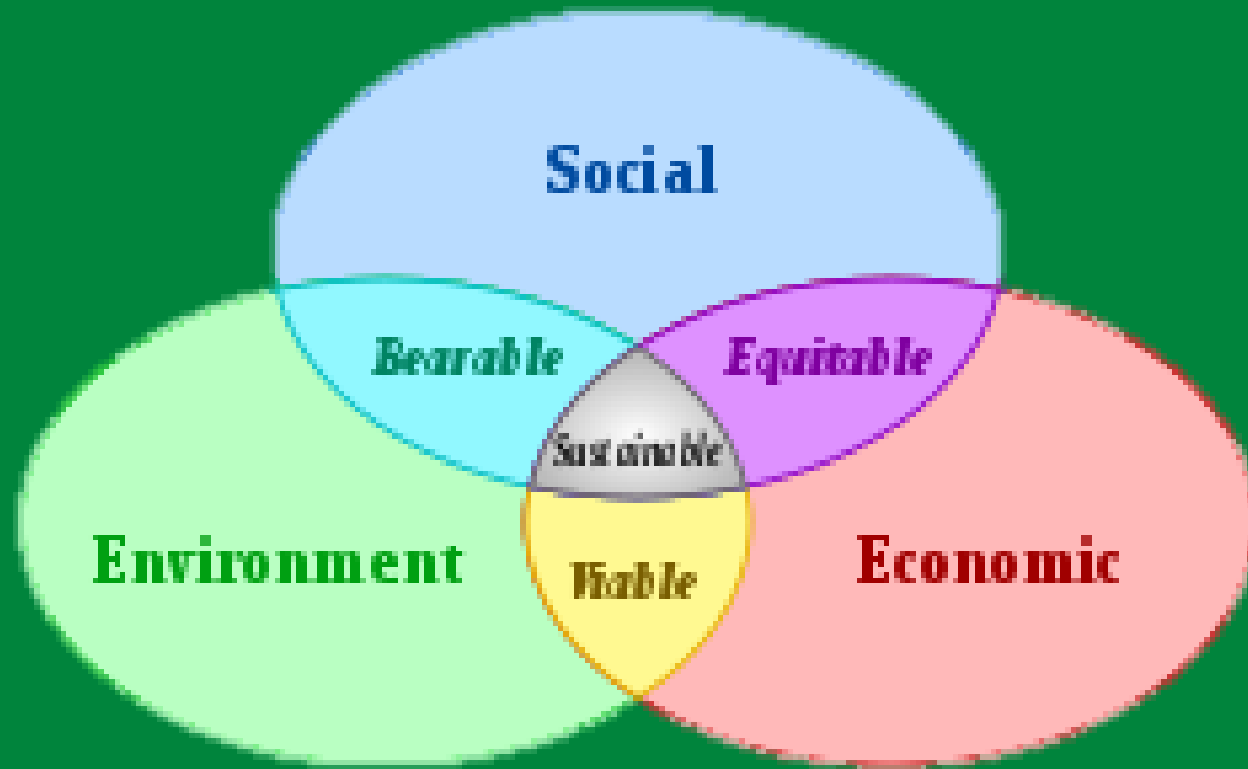

OUR PLANET IS IN DANGER

For some years now, our planet has been in danger due to people polluting their environment. In recent times a large number of countries have developed policies to protect the environment from industry and other sources of pollution.

THE MOST COMMON FORMS OF POLLUTION ARE:

Promoting collaboration between different social agents to create an environment of peace and sustainable development is the way to save our planet.

WHAT IS SUSTAINABLE DEVELOPMENT?

Sustainable development is when we continue to use resources to meet our needs, but we also preserve the environment. Sustainable energy can reduce poverty and develop the economy so that the world can live better now and in the future.

ALL GREEN!!!

SCHOOL CHILDREN ARE ECO-CITIZENS

More and more schools are starting green projects on sustainable development and our school is one of them!!!

Let's hear about some project students started at Lower Secondary School last year.

WATCH IT!!!

HOW WE CULTIVATE ENVIRONMENTAL AWARENESS AT OUR SCHOOL LET'S GO GREEN!

We Observe the Nature of things, to Understand the Natural Laws

We take care of the school garden

WE ORGANIZE FORUMS

In the shoes of green reporters we investigated our local environment needs

We learn to REDUCE

We collected sour cherries in the countryside nearby and made jam. It was a great experience!!!

We learn to RECYCLE and to REUSE

In our
workshop we
recycled
fried oil and
we made
soap from
it!!!

We took part in different workshops and we wrote a code of good environmental practice. We want to share it with you!!!

Cześć!
CIAO!

Thanks for your attention
And don't forget the 3rs for a
better word:
REUSE, REDUCE, RECYCLE

γειά σου

Merhaba!

Alo!
